EACT Summit Training

AI in Treasury

Practical, real-world examples of how **you** can start your AI journey in treasury

What to expect?

Bring a laptop and get ready for two hours of hints, tips and use cases from our AI Gurus that will make you think differently about AI. Our experts will show you how to go beyond doing the same process faster, to do more – and better.

Why attend?

This session will give you detailed practical insight into how companies are using AI in treasury – and how you too can achieve best practice. Get a taste of the future today, guided by two highly experienced former treasurers who have implemented these processes and ideas themselves.

What will you learn?

- What AI Tools are best for Treasury
- Tips for prompting, how to get the right answers first time from GPT and AI Tools
- Maintaining security when using AI
- To create your own GPT chatbot
- Why Python and AI can speed analysis and reporting
- How to automate your FX process using AI and Python

Your Tutors

James Kelly

James is a highly experienced FTSE 100 treasurer with a proven track record at leading UK companies like Pearson, Sky, and Kingfisher. Recognised for his innovative use of technology, he is the current holder of Adam Smith, Alexander Hamilton and TMI awards. A sought-after speaker for the ACT and EuroFinance, James is dedicated to sharing his expertise and empowering others in the industry.

Dominic Lynch

Dominic is an accomplished treasurer who has built cutting-edge centralised treasury operating models for unicorn companies Bitpanda and GoStudent. A former consultant for S&P 500 organisations specialising in derivatives and risk management. He holds multiple treasury transformation, transaction management and AI awards from Treasury Today (Adam Smith) and TMI. He is a frequent speaker for Tier 1 banks and conferences. He is a key member of the Technology and IBOR Reform working groups for the Austrian Corporate Treasury Association.
